I am a highly skilled software developer with over 5 years of experience in building innovative and scalable web applications. I am passionate about coding, problem-solving, and continually expanding my skill set. My areas of expertise include front-end development, JavaScript frameworks such as React and Angular, back-end development with Node.js, and working with databases like MySQL and MongoDB. I thrive in collaborative environments and am always eager to take on new challenges. I believe in continuous learning and always strive to improve my skills by staying up-to-date with the latest advancements in web development.

Education

Bachelor of Science in Computer Science University of XYZ

2015 - 2019

Master of Science in Software Engineering University of ABC

2019 - 2021

Work Experience

Software Engineer at Tech Corp

2021 - 2023

As a Software Engineer at Tech Corp, I was responsible for developing, maintaining, and optimizing web applications. I collaborated closely with cross-functional teams, including product managers, UX/UI designers, and other developers, to build scalable solutions that meet customer needs.

Web Developer at Web Solutions

2020 - 2021

As a Web Developer at Web Solutions, I worked on the development and maintenance of various client-facing websites. I collaborated with clients to understand their needs and implemented solutions that met their specifications.
